- Maternal and Child Health Centres provide cervical smear test to women aged at or above 25 who have ever had sex. If you are having this test regularly, please book the appointment one month before the due date.

- Fees and Charges:

Eligible Persons:	\$100
Non-eligible Persons	\$205

Note: Patients falling into the following categories are eligible for the rates of charges applicable to Eligible Persons:

- (i) a holder of Hong Kong Identity Card issued under the Registration of Persons Ordinance;
- (ii) other persons approved by the Director of Health.

- Women who have never had sex or have undergone total hysterectomy do not need cervical smear test.

Preparations before booking :

- Please have your Hong Kong Identity Card / valid travel document and telephone number ready at hand.
- Try to recall the date of your last menstrual period. Cervical smear test should be avoided during menstruation. Thus, please make your appointment before or after your menstruation. You may estimate the date as follows: e.g. if your last menstrual period was from the 1st to 5th of January, your next menstruation will probably be on the date between end of January to early February. You should therefore avoid making the appointment within the period of 27th of January to the 5th of February. You could choose a date between the 6th to 26th of January, or between the 7th to 25th of February as far as possible.
- Women aged at or above 40 are advised to make an appointment after the 12th day of the menses.
- Avoid coitus or vaginal douching one day before the test.
- Avoid vaginal pessary within one week before the test.

Other points to note :

- Your booking is valid only after confirmation by the computer.
- If you want to change or cancel the appointment, please phone this hotline again 2 days before the appointment date.
- If the service is suspended due to situations such as typhoon or black rainstorms, you have to book another appointment.
- On the appointment day, please bring along your Hong Kong Identity Card / travel document and the fee to register at the counter. Those who are late for over 15 minutes would not be served.
- Maternal and Child Health Centres only provide cervical smear test but not routine gynaecological examination. Please seek medical advice from General Outpatient Clinics or private doctors if you have abnormal vaginal bleeding or discharge.
